

**Help us Build the
Future for people
with sight loss,
their families and
communities.**

Our **Build the Future** appeal
will generate funds and support
to develop four new regional
centres across the UK over the
next five years.

The centres will offer the space and facilities to provide the best possible experience and support for people with sight loss, their families and communities. They will provide more effective spaces to train and care for our dogs, and to let them relax when they're not working.

Our partnerships with companies, trusts and major donors help us **change the lives of more people** than we ever could on our own.

If you have any connections within companies, trusts or potential major donors who would like to support the Build the Future appeal, please get in touch:
