

South East region: puppy raising update April 2024

Hi everyone,

Hope everyone is enjoying spring and getting ready for summer too! I don't know about you, but it feels like the year is flying by.

Here in the South East we've really enjoyed putting on our new virtual learning sessions which are being held every month. Our first one had over 60 attendees and we had some lovely feedback. Just a reminder if you have any ideas of topics, you'd like covered please tell your Puppy Development Advisor (PDA). If you'd like to attend future sessions, please ask your PDA and they'll pass the link on to you again.

Something else we've really enjoyed this first quarter is a huge number of group visits. We've been to so many varied locations, it really is impressive! Places include: The London Eye, Paws on the Wharf, a cruise ship, various airports, fire stations, bus depots, The Shard and Covent Garden and that's just a few of the many places! I've included a montage of the many pictures below.

Finally, I'd like to introduce one of our new PDAs, Ashley Kennedy Antell who is covering our Sussex counties. Ashley says:

“Hi everyone, I'm Ashley. I have been dog training for many years, working as an Advanced Trainer for assistance dog charity Canine Partners and training owners and their pet dogs. Working as a Puppy Development Advisor at Guide Dogs not only means I feel part of a journey that will hopefully lead to a qualified guide dog who can change someone's life, but I get to have lots of puppy cuddles along the way too!”

Helena Gibbons
CAS Operations Manager
