Raising pounds for clever hounds

Every day, 250 more people in the UK join the two million already living with sight loss. And this number is set to double by 2050.

We are Guide Dogs. We're here to help people with sight loss live the life they choose. Children and adults. Friends and family. Our expert staff, volunteers and life-changing dogs are here to help people live actively, independently and well.

Paws on the Wharf is a celebration of our iconic guide dogs who help people get out and about with confidence - and knowing that sight loss won't hold them back.

Our work is not limited to our dogs. We offer a range of services that provide advice and skills, enabling people to live life on their own terms.

How your donation can help

“

Theia's made an enormous difference in my life. Everything has just become much easier in terms of mobility and getting out. Getting around London and the commute to work with Theia is just so much easier. And actually, we come to London now for the sake of coming to London - to have fun and do things. Without Theia, my life would be very different.”

Lorraine and her Citi-supported guide dog Theia.

Accessibility

Paws on the Wharf is here to raise awareness of the challenges of living with sight loss and to highlight the importance of accessibility and inclusion.

We want everyone to enjoy our art trail and experience the benefits of getting out and about, discovering new areas and appreciating art and creativity.

Some of the ways we're making our art trail accessible are:

- Providing guides in alternative formats
- Ensuring the trail is step-free
- Offering bookable sighted guide and sensory tours. Book your place at [guidedogs.org.uk/pawsonthewharf/tours](https://www.guidedogs.org.uk/pawsonthewharf/tours)
- Some sculptures include tactile elements
- NaviLens technology to support people with sight loss to experience the trail

**With thanks to our
Accessible Events Partner:**

“

Guide Dogs is so excited to bring our accessible art trail to Canary Wharf. We hope it will be an artistic event that everyone can enjoy - truly inclusive and a shared experience for all. Thank you to the wonderful artists and sponsors who have made Paws on the Wharf possible and who have given us a unique way to raise awareness and funds for Guide Dogs.”

Andrew Lennox, Chief Executive Officer, Guide Dogs

NaviLens is a new and exciting accessibility technology. These colourful codes were created to help people who are blind or partially sighted access important information about their surroundings. NaviLens codes are unique in that they can be detected from much further away, at extreme angles and much quicker than normal codes. Simply download the NaviLens App, scan the codes and enjoy.
